

PRESSURE VESSELS

INTRODUCTION

SINACO supplies a vast range of high-quality pressure vessels/heat exchangers widely used in industries such as refining & petrochemical, chemical, natural gas, power generation, marine offshore, pharmaceutical and others. All our manufacturers are ISO certified with competency to design and fabricate ASME pressure vessels/heat exchangers with U, U2, S stamping. We provide pressure vessels/heat exchangers in most materials such as stainless steel, titanium, Hastelloy, Inconel and aluminum etc.
